FREE FAMILY FISHING DAYS

February 13 - 14, 2016 and June 4-5, 2016.

On these days any person (except those whose license has been suspended or revoked) may fish without a license.
All other laws and regulations apply on these days.

About this Guide

This high-quality regulation guide is offered to you by the Maine Department of Inland Fisheries and Wildlife through its unique partnership with J.F. Griffin Publishing, LLC.

J.F. Griffin is an award winning publishing house that specializes in producing state fish & wildlife regulation books. J.F. Griffin supports the MDIF&W's staff in the design, layout and editing of the guides. They also manage the marketing and sales of advertising to appropriate businesses within the book.

The revenue generated through ad sales significantly lowers production costs and generates savings. These savings translate into additional funds for other important fisheries and habitat programs.

If you have any feedback or are interested in advertising, please contact us at 413.884.1001 or online at www.JFGriffin.com

**ALL-NEW
GRIZZLY® EPS**

NATURAL BORN HUNTERS.

WOLVERINE® R-SPEC

ALL-NEW KODIAK® 700 EPS

VIKING VI®

The full line of new Yamaha ATVs & SxS vehicles.

Introducing the latest members of the Yamaha off-road family. The all-new Kodiak 700 ATVs, available in three great models starting at just \$6,999*, offer the ultimate combination of performance, durability, comfort and value – and are all engineered to tackle the toughest hunts 24/7. The all-new Grizzly, available in four class-leading models, delivers more trail-taming performance, power and comfort than ever. And Yamaha Side x Sides, including the Viking, Viking VI and all-new Wolverines, offer unmatched Real World Tough durability and off-road capability for two to six people. So if you're searching for the ultimate ATV or Side x Side, call off the hunt and get a Yamaha.

**REAL
WORLD
TOUGH.™**

For your nearest Pro Yamaha dealer and to learn more about the full line of Yamaha ATVs and Side x Sides, visit YamahaOutdoors.com

*Subject to change. - ATVs shown are recommended for use only by riders age 16 years and older. Yamaha recommends that all ATV riders take an approved training course. For safety and training information, see your dealer or call the ATV Safety Institute at 1-800-887-2887. ATVs can be hazardous to operate. For your safety: Always avoid paved surfaces. Never ride on public roads. Always wear a helmet, eye protection and protective clothing; never carry passengers; never engage in stunt riding; riding and alcohol/drugs don't mix; avoid excessive speed; and be particularly careful on difficult terrain. - For SxS: Always protect the environment and wear your seat belt, helmet, eye protection and protective clothing. Read the owner's manual and product warning labels before operation. - Specifications subject to change without notice. Professional riders depicted on a closed course. Models shown with optional Genuine Yamaha Accessories. ©2015 Yamaha Motor Corporation. U.S.A. All rights reserved.

How to Use This Book

1. Go to page 18 and read through the General Law bag limits, length limits, and gear restrictions that apply to all waters in the State of Maine that do not have special rules stating otherwise.
2. Determine which county the water you wish to fish is located in.
3. Go to the maps on page 19 to determine the region of the state you wish to fish. The regions are called the Southern and Eastern Counties and the Northern and Western Counties. Read through the season dates and other rules that apply to the county and the time period you wish to fish.
4. Search for the water you wish to fish by county beginning on either page 20 (Southern and Eastern Counties) or on page 34 (Northern and Western Counties).
5. If the water is listed, then read the special rules that are in effect. Some special rules are explained in text format, others are explained by a code consisting of bold-face letters, and others are explained by a code that begins with the letter "S" followed by a number. A table explaining all the codes is located on the inside flap of the back cover (page 66). NOTE: Be sure to check the tributary waters for any special rules, such as S-3.
6. If the water you wish to fish is not listed, then follow the statewide General Laws (page 18), the general rule season dates for either the Southern and Eastern or the Northern and Western Counties (page 19), and any special rules for each county beginning on either page 20 or page 34.

Portions of Maine Statute, Title 12 have been summarized for this publication. For more specific language contained in Title 12, please visit our website at mefishwildlife.com. Each revision of this publication is filed with the Secretary of State and, as a result, the rules herein have the force of law as printed.

Present valid Maine Fishing License
and receive up to \$1,750 in

Alien Season Fishing (16 and older)	\$84
Alien Combination Fishing & Hunting	\$191
Duplicate (obtained from agent who issued original)	\$2

A non-resident between 18–24 enrolled full-time in a college in Maine may be eligible for a resident rate license for fishing, hunting, & trapping. This license must be obtained at the Main Office in Augusta.

BECOME AN OUTDOOR PARTNER

Join the Outdoor Partners Program and Receive Great Benefits!

The Outdoor Partners landowner relations program works to ensure access for outdoor recreation. Members agree to act respectfully and responsibly while enjoying the outdoors, and in return, receive discounts and deals throughout the state. The \$15.00 cost supports the Outdoor Partners landowner relations program. For more info, please visit www.mefishwildlife.com.

* 1-day fishing license may be exchanged by a Maine resident for a season fishing or combination hunting and fishing license upon payment of the difference between that fee and the fee for the annual license, plus the agent's fee.

** Maine resident permanently stationed outside the state of Maine.

*** Nonresident 15-day fishing license may be exchanged for a nonresident season fishing license upon payment of \$17 plus the agent's fee.

LIFETIME LICENSES

Your investment in a lifetime license for yourself or as a gift, will allow the bearer to fish, trap, and/or hunt for their lifetime, regardless of where they will live in the future. The revenues generated by the sale of these licenses will be deposited in a special trust fund that will provide long-term financial support for Maine's fish and wildlife.

***** These fees are subject to change, please check with the department for current fees.

For more information about the Lifetime License Program, please call (207) 287-8000. Lifetime Licenses must be obtained at the Main Office in Augusta.

All residents and nonresidents who operate any motorized watercraft or aircraft equipped with pontoons on inland waters must display a Lake & River Protection Sticker in addition to a current boat registration sticker.

MAINE BOATERS' STORE!

Thousands of Products for You and Your Boat!

38 years ago, Hamilton Marine opened "shop" in Wayne and Loraine Hamilton's home garage on a back street in Searsport. Today, the Hamiltons operate five marine super stores in Maine, and an estore that sells supplies all over the world. The aisles are well-stocked. The staff, friendly and helpful. And the prices more than fair. There are over 120,000 boats in Maine and Hamilton Marine has something for every one of them. Come in and see.

LICENSE REQUIREMENTS

LICENSE REQUIREMENTS

No resident of this state, 16 years of age or older, or nonresident, 16 years of age or older, may fish in inland waters or transport fish taken from inland waters without first obtaining a valid Maine fishing license. Maine residents* may obtain a fishing license from any resident license agent. Nonresidents** may obtain fishing licenses in person or by mail from the IF&W Department Office in Augusta or from any of the numerous nonresident license agents throughout the state. Residents and nonresidents are also able to purchase licenses on our website mefishwildlife.com.

A person is required to keep his/her fishing license with him/her at all times while fishing or transporting fish and must exhibit their license for inspection by any warden, department employee, guide or landowner upon request. An electronic license or permit can now be displayed in lieu of a physical paper license or permit.

Possession of fishing tackle in the fields or forest or on the waters or ice of this State without a fishing license is prima facie evidence of fishing in violation of the law.

The commissioner may allow a licensee who has received a complimentary fishing license to have a person accompany and assist that licensee in fishing. The person accompanying and assisting the holder of a complimentary fishing license may do so without obtaining a separate fishing license. This subsection does not authorize the person accompanying and

assisting the licensee to assist that licensee with more than one fishing rod and reel. The person accompanying and assisting the licensee must remain within the immediate proximity of the licensee while that licensee is fishing.

FREE (COMPLIMENTARY) FISHING LICENSE PROVISIONS

A free fishing license will be issued, upon application, to the following (these free licenses may be obtained at the Department Office in Augusta):

1. Any Maine resident who is blind;
2. Any Maine Native American who is a member of the Passamaquoddy, Penobscot, Maliseet, or Micmac Tribe (must obtain licenses from their respective tribal headquarters);
3. Any Maine, NH, or VT resident who is a war veteran and has a service-connected disability of 50%;
4. Any Maine resident (or nonresident, if reciprocal privileges exist in the home state of the nonresident) who is suffering from the loss, or loss of use, of both lower extremities;
5. Any person with a developmental disability (as defined in Title 5, §19503);
6. Any person with a head injury (as defined in Title 22, §3086); and
7. Any resident 16 or 17 years old in the custody of the Dept. of Health and Human Services.

A fine catch of splake by young anglers at Wyman Lake.

SPECIAL OPPORTUNITIES FOR YOUTH AND ELIGIBLE COMPLIMENTARY LICENSE HOLDERS

Special fishing opportunities for youth anglers (under 16 years of age) and complimentary license-holders with physical or cognitive disabilities are indicated by the **S-9** code in the special rules sections of this lawbook, which begin on page 20. Complimentary license holders eligible to fish in S-9 waters include:

1. Any Maine resident who is blind;
2. Any Maine, NH, or VT resident who is a war veteran and has a service-connected disability of 50%;
3. Any Maine resident (or nonresident, if reciprocal privileges exist in the home state of the nonresident) who is suffering from the loss, or loss of use, of both lower extremities;
4. Any person with a developmental disability (as defined in Title 5, §19503);
5. Any person with a head injury (as defined in Title 22, §3086), and
6. Any resident 16 or 17 years old in the custody of the Dept. of Health and Human Services.

NOTE: Certain waters are reserved for fishing only by persons under 16 years of age. These waters are indicated by the S-11 code in the special rules sections of this lawbook, which begin on page 20.

RESIDENCY DEFINITIONS

***Resident** means a citizen of the United States who is domiciled in this State or an alien who has been so domiciled for one year. You will not be considered a resident unless:

- if registered to vote, registered in Maine;
- if licensed to drive a motor vehicle, applied for a Maine motor vehicle license;
- if owning a motor vehicle(s) located within the State, registered each vehicle in Maine;
- complied with the State income tax laws; and
- if a full-time student at a Maine college or university, resides in Maine AND satisfies above requirements.

****Nonresident** means a person who does not fall within the definition of resident.

With more than 6,000 lakes and ponds, 3,000 miles of coastline, and 32,000 miles of rivers and streams, few states can match the magnitude of water that Maine has to offer. Which is why boating adds approximately \$150 million to the state's economy each year.

But with the scenic waterways comes a substantial number of boating accidents. **According to the U.S. Coast Guard, there are approximately 5,000 recreational boating accidents in the United States annually, resulting in more than 750 fatalities and 3,500 injuries.** Of the 750 deaths, on average over 500 include victims who drowned without wearing a life jacket.

At the Law Offices of Joe Bornstein, we see victims of boating accidents on a regular basis. That's why we want to help educate boaters on how to be safe when on the open water. Because when it comes to boating safety, a little education can be the difference between life and death.

- All motorized boats must carry a current registration sticker from the state.
- The age restriction for operating a personal watercraft, including a jet-ski, is 16. Boaters between the ages of 16-18 must either be accompanied by an adult or have completed an approved education course and carry proof of completion.
- Every boat should have one life jacket per passenger on board.
- Carry an emergency kit and cell phone, and be sure to tell someone where you are headed and when you expect to return.
- Slow down when near other boats, swimmers, and those enjoying the water. Your consideration will allow others to have fun and remain safe.
- Most boating accidents are alcohol-related. Like driving a car, it is illegal to operate a boat with a Blood Alcohol Content level over .08.
- Educate yourself on basic water safety and boating rules. The U.S. Coast Guard strongly recommends that all boat owners take an official boater education course.

By following a few simple safety tips, boaters can enjoy their time on Maine's waterways while ensuring safety for themselves and others. Because at the end of the day, knowing you had a safe and relaxing day out at sea is fun in itself, especially if you don't rock the boat.

For more information on boating safety tips please visit:
www.uscgboating.org

Advance Baiting:

It is unlawful to deposit any meat, bones, dead fish or other food material in inland waters for the purpose of luring fish. However, it is lawful to place food particles in a baitfish trap for the purpose of luring baitfish. (12657)

Alewives (migratory sea-run):

The term “alewives”, when used alone, means the same as River Herring or Blueback Herring. A licensed fisherman may take 25 alewives daily from inland waters by the use of a dip net or single hook and line for consumption by himself or members of his family, except that alewives may not be taken from waters where a municipality or individual has been granted exclusive rights under laws regulating marine resources. (12506 -5-A) Exclusive rights apply to the watershed above the municipality as well as all waters within the municipality.

Artificial Lure:

Any fishing lure constructed by humans as an imitation or substitute for natural bait or fish forage and includes, but is not limited to artificial flies, spinners, spoons, poppers, plugs, jigs and plastic, rubber or other artificial imitations of natural bait. An artificial lures only rule prohibits the use of any live, dead or chemically preserved natural or organic bait or food. (12655)

Bag Limit (All Fish):

Any fish, except baitfish and smelts, taken from inland waters shall be immediately released alive into the water from which it was taken, or killed at once. Any fish killed becomes part of the daily bag limit. (12611)

Bait Containers:

A person selling bait may not provide or sell the bait in containers composed in whole or in part of polystyrene foam plastic. This does not apply to baitfish. (12553-2)

Bass:

The term “bass”, when used alone, includes largemouth and smallmouth.

Brook Trout:

The term “brook trout” includes brook trout, splake, and Arctic char (Sunapee trout and blueback trout).

Closed Waters:

All inland waters, including those in Indian Territory (See page 53), are closed to ice fishing except those opened by rule.

County Lines:

Whenever county lines divide a body of water, the more liberal county rule applies to the entire body of water.

Cusk Lines:

All lines set through the ice at night (sunset to sunrise) for cusk must be checked at least once every hour by the person who set them. (12659-A-4)

Dip Net:

A device consisting of a rigid frame filled with netting, firmly attached to a rigid handle and manually operated by a single person.

Failure to Label Fish:

It is unlawful to keep bass, landlocked salmon, togue (lake trout) or trout at any sporting camp, hotel, public lodging place or any place other than a person's residence without attaching the name and address of the person who caught the fish. (12608)

Fishways:

The area within 150 feet of any operational fishway is closed to fishing. For the purposes of this subsection “operational” means a fishway capable of fish passage whether or not it is allowing the passage of fish at any given time. Exceptions to the above restriction are as follows:

- At the following places, the fishway and the area within 75 feet of any part of the fishway are closed to fishing at all times:
 1. Grand Falls Powerhouse Dam on St. Croix River in Baileyville.
 2. Woodland Dam on the St. Croix River in Baileyville.
- At the following places, the area within the fishway and within 75 feet of the downstream mouth of the fishway is closed to fishing at all times (fishing upstream from the dam at the top of the fishway is lawful):
 1. East Grand Lake Dam in Forest City Twp (T9 R4 NBPP).
 2. Spednic Lake Dam in Vanceboro
- At the so-called ice control dam on the Narraguagus River in the Town of Cherryfield, the area within 100 feet of the dam is closed to fishing at all times.
- At the East Outlet Dam on the outlet of Moosehead Lake in Sapling Twp. (T1 R7 BKP WKR) in Somerset County and in Big Moose Twp. (T2 R6 BKP EKR) in Piscataquis County, the fishway and the area within 50 feet of any part of the fishway is closed to fishing at all times.
- At the following places, fishing is prohibited in or from the fishway; there are no distance restrictions when fishing near the fishway: Beaver Pond Dam in Seven Ponds Township in Franklin County, Chain of Ponds Dam in Chain of Ponds Township in Franklin County, Davis Pond Dam in Eddington in Penobscot County, Leonard's Mills Dam on Blackman Stream in Bradley in Penobscot County, Little Island Pond Dam in Seven Ponds Township in Franklin County, Long Pond Dam in Seven Ponds Township in Franklin County, Pushaw Lake Dam in Hudson in Penobscot County, Sheepscot Lake Dam in the Town of Palermo in Waldo County, Souadabscook Stream Dam at Grist Mill Pond in Carmel in Penobscot County, and Webber Pond Dam in Vassalboro in Kennebec County.

(Note: These provisions do not restrict the taking of alewives and smelts in accordance with laws regulating marine resources.) (12457)

Fly (Artificial Fly):

A single-pointed hook dressed with feathers, hair,

thread, tinsel, or any similar material to which no additional hook, spinner, spoon or similar device is added.

Fly Fishing:

Casting upon water and retrieving in a manner in which the weight of the fly line propels the fly. No more than 3 unbaited artificial flies individually attached to a line may be used. (12654-A) (NOTE: It is unlawful to troll a fly in waters restricted to fly fishing only.) (12658)

Free Family Fishing Days:

Will take place on February 13–14, 2016 and June 4–5, 2016. On these days, any person (except those whose license has been suspended or revoked) may fish without a license. All other laws and regulations apply on these days.

General Law:

General Law is defined as laws and rules that govern fishing in all water bodies unless there are other more specific regulations listed. More specifically, general law covers any legal terminal gear, daily bag and possession limits, season dates and species. The General Law provisions are located on page 18.

Hook:

A single fish hook constructed with 1, 2 or 3 points.

Ice Fishing:

Taking freshwater fish during the ice fishing season through man-made openings in the ice by the use of ice fishing implements. It is unlawful to open water fish in inland waters while positioned on ice. (12601)

Ice Fishing Implement:

Any lawful fishing implement used to take fish through the ice including a trap (tip-up), jig stick, rod in hand or handline, except that a person engaged in taking smelts and baitfish may do so in accordance with the laws and rules governing these activities.

Ice Fishing Shack:

A person who owns any shack or temporary structure used for ice fishing:

- Must remove, or cause to be removed, the shack or structure on the ice of any inland waters prior to ice out, or 3 days after the close of the ice fishing season.
- Shall have painted on the outside of the shack or structure in 2-inch letters, the owner's name and address when the shack or structure is on the ice of any inland waters. (12661)
- A person may not leave a structure on another person's land without permission of the landowner. (Title 17, §2263-A)

Ice Fishing Trap (Tip-Up):

An ice fishing implement for storing line, designed to be set through the ice and to indicate when something has disturbed the attached bait.

Illegal Implements, Use of:

- A. Except as otherwise provided, it is unlawful to possess any grapnel, trawl, weir, seine, gill net, trap, set line or drop net on or adjacent to any of the inland waters of this State.
- B. Except as otherwise provided, it is unlawful to fish with a grapnel, spear, spear gun, trawl, weir, gaff, seine, gill net, trap, or set lines. (12656)

Illegal Fishing:

Except as otherwise provided, it is unlawful to fish other than with a single baited hook and line, artificial flies or artificial lures and spinners.

Exception: This does not apply to hook and line smelt fishing. All other rules and regulations governing the taking of smelt apply. Use of a gaff is unlawful. (12654)

Illegal Use of Antifreeze:

Adding substances containing ethylene glycol or other antifreeze agents to waters of this State is illegal. (Title 38, §413)

Importation of Fish:

It is unlawful to import any live freshwater fish or eggs into this State without written permission from the Commissioner. (12556)

Lead Sinkers:

It is unlawful to sell, offer for sale, or use a lead sinker that weighs one ounce or less or measures 2.5 inches or less. This does not include artificial lures, or weighted line or lines, or jigs. NOTE: After September 1, 2016 the sale or offer for sale of an unpainted bare lead jig that weighs one ounce or less or measures 2.5 inches or less is prohibited and after September 1, 2017 the use of an unpainted bare lead jig that weighs one ounce or less or measures 2.5 inches or less is prohibited. (12663-B & 12664)

Line Restrictions:

Unless otherwise provided by rule, the number of lines an angler may fish at any one time is limited to two lines while open water fishing and five lines while ice fishing. At no time may an angler fish with more than five lines.

Litter:

It is unlawful to dispose of litter (including abandoned ice fishing shacks) anywhere in this State, except in areas or receptacles designed for that purpose. Convicted violators face fines up to \$500 for the first offense and up to \$2,000 for subsequent offenses.

Marking Fish:

It is unlawful to tag, fin clip, or otherwise mark any fish to be released alive into the inland waters of the State without the written consent of the Commissioner. (12601)

Minimum Legal Length:

The total length of a fish measured from the tip of the snout to the tip of the tail, with the lobes of the tail squeezed together.

Night Fishing:

Except as otherwise provided by rule, all waters open to fishing are open to fishing 24 hours a day. All lines must be under the immediate supervision of the person who set them. (Open Water Fishing - 12652, Ice Fishing - 12659-A)

Exception: All lines set through the ice at night for cusk must be checked at least once every hour by the person who set them. (12659-A-4)

Notice of Submerged Vehicle:

The owner of any motor vehicle, all terrain vehicle or snowmobile that becomes submerged, or partially submerged, in the waters of the State shall immediately notify the Commissioner of Inland Fisheries and Wildlife of the event and the location of the vehicle. The owner is legally liable for removal and to pay any damages resulting from the submersion or removal. Motor vehicles shall be removed within 30 days (same day if public water supply). Snowmobiles and ATVs shall be removed within 24 hours. (Title 17, §2267-A)

Open Water Fishing:

Taking freshwater fish during the open water fishing season by means of hook and line in hand, or attached to a rod, or by casting or trolling artificial flies, lures, or baited hooks, provided that the person angling does not take fish through a man made hole in the ice, from the ice or from any object supported by the ice. (12601)

Possessing Gift Fish:

A person who does not possess a valid fishing license issued under chapter 923 may not possess a fish or any part of a fish given to that person except a person may possess in that person's domicile a gift fish that was lawfully caught and is plainly labeled with the name of the person who gave the fish and the year, month and day the fish was caught by that person. This section does not apply to baitfish. (12613)

Possession Limit (All Fish):

A person shall not possess at any time more fish than may lawfully be taken in one day. (12602-2)

Railroad Track Restrictions:

A person may not, without right, stand or walk on a railroad track or railroad bridge or pass over a railroad bridge except by railroad conveyance. For penalties see Title 23, Chapter 611, § 7007.

Removal of Bag Limits on Bass:

In waters where the bag limit on bass has been removed by special rule, the season on bass and the method of fishing for them is the same as for trout and landlocked salmon.

Removal of Heads and Tails:

It is unlawful to alter the length of landlocked salmon, trout, togue, lake whitefish, and bass unless the fish are being prepared for immediate cooking. It is unlawful to possess or transport fish dressed in such a manner that the species of fish cannot be identified; unless the fish are being prepared for immediate cooking (smoking does not constitute cooking). (12601)

Sale of Certain Fish Prohibited:

It is unlawful to buy or sell, directly or indirectly, trout, togue, landlocked salmon, bass, white perch, or pickerel (except fish which have been lawfully produced by commercial producers and skins of fish which have been preserved by taxidermy). (12609-A)

Salmon:

The term "Salmon." when used alone, means the same as landlocked salmon.

Salmon Eggs As Bait:

Commercially prepared eggs from species that do not naturally occur in this State may be used for bait. (12553)

Season Dates:

All dates are inclusive.

Set Line:

A line extending into the water and rigged to catch fish that has one end secured to the shore, or to a fixed or buoyant object, that is not personally attended.

Exception: lines set through the ice for cusk at night.

Single-Baited Hook:

A single-baited apparatus designed to catch only one fish at a time.

CampMaine

With so many choices — from the simple pleasure of tent camping to full-service RV resorts with everything you need, or even comfy cabin rentals — a Maine camping experience is like no other.

CampMaine.com will help you find the camping experience as unique as you are within reach of all you want to see and do in Maine. With easy to use search tools, maps, and resources, *Maine's Official Camping Guide* will virtually point the way.

Get started today at
CampMaine.com

Smelting:

A person holding a valid Maine fishing license may take smelts for recreational purposes only from the inland waters or portions of inland waters that are open to fishing and naturally free of ice with a dip net in the usual and ordinary way from noon to 2:00 a.m. in accordance with bag limits established by rule. Bag limits established by rule under this paragraph are for a 24-hour period, beginning at noon on a given day and ending at 11:59 a.m. the following day. A person may not take smelts with a dip net unless that dip net meets the requirements listed on page 12. A dip net when used to take smelts in a tributary or within 100 feet of the mouth of a tributary must contain a rigid circular frame that is not more than 24 inches in diameter as measured at any point on the hoop and manually operated by a single person. (12456)

Note: An unlimited number of baited hooks may be used on your line while fishing for smelts.

Snagging:

To fish by manipulating a hook or hooks in such a manner as to pierce or snag the fish in a part of the body other than the mouth. It is unlawful to fish for any fish, except suckers, by snagging. (12651)

Special Bag Limit:

Whenever any waters have a special bag limit, no person shall possess more than one day's bag limit taken from those waters.

Species Identification:

It is unlawful to possess or transport fish dressed in such a manner that the species of the fish cannot be identified unless the fish are being

prepared for immediate cooking. (Smoking does not constitute cooking.) (12601)

Suckers:

Persons licensed, or otherwise entitled to fish, may take suckers for their own use between April 1st and June 30th from all rivers, streams and brooks open to fishing by use of a hand spear, bow and arrow or by snagging. (Note: If suckers are taken by bow and arrow, the arrow must have a barbed or pronged point and must be attached to the bow with a line.) (12506)

Supervision of Lines:

All lines must be under the immediate supervision of the person who set them. Exception: All lines set through the ice at night for cusk must be checked at least once every hour by the person who set them. (Open Water Fishing - 12652, Ice Fishing - 12659-A, Cusk Fishing - 12659-A)

Ten-Acre Ponds:

All ponds of 10 acres or less formed on rivers, streams and brooks are governed by the same fishing rule(s), *unless specifically listed for the waterbody*, that apply to the river, stream, or brook where the pond is situated, whether the pond is natural or artificial. (This does not apply to private ponds.)

Terminal Gear:

Tackle at the end of a line used to catch fish, including baited and unbaited hooks, artificial lures and baits, and artificial flies.

Thoroughfares:

Waterways connecting lakes and/or ponds. The general fishing laws governing lakes and ponds also apply to thoroughfares (includes seasons, bag limits, length limits, etc.)

To Fish:

To take, catch, kill, molest or destroy any fish or to attempt to take, catch, kill or molest or destroy any fish.

Togue:

The term "Togue" means the same as Lake Trout.

Tributary:

A river, stream, or brook flowing directly or indirectly into a lake, pond, or another river, stream, or brook. A lake or great pond shall not be construed to mean tributary. The tributary to a great pond shall not be considered a tributary to the outlet of that great pond.

Troll:

To fish by trailing a line rigged to catch fish behind or in front of a watercraft being propelled by mechanical, wind or manual power. (Tandem flies are allowed when trolling.)

Trout:

The term "trout" when used alone, includes brook trout, brown trout, rainbow trout, Arctic char (Sunapee trout and blueback trout), and splake. The term "brook trout" includes brook trout, splake and Arctic char (Sunapee trout and blueback trout).

Use of Explosive, Poisonous or Stupefying Substance:

It is unlawful to take or destroy any fish by use of an explosive, poisonous or stupefying substance. (12653)

Use of Fish (live or dead) as Bait:

See laws on page 61 concerning the use of baitfish (live or dead).

Violation of Limits:

It is unlawful to fish for or possess fish in violation of the number, amount, or size limits of any rule adopted by the Commissioner. (12602)

HOW DOES YOUR FISHING LICENSE SUPPORT MAINE'S FISHERIES?

Dingell-Johnson Sport Fish Restoration Program

The Federal Aid in Sport Fish Restoration Program is a cooperative effort involving federal and state government agencies. This program was first established in 1950 by the Dingell-Johnson Act, and then expanded considerably in 1984 through the Wallop-Breaux Amendment. The program established a "User Pay/User Benefit" philosophy for funding States' restoration and conservation efforts directed towards America's fisheries resources. Revenues are collected from excise taxes on fishing tackle, motorboat fuel sales, and import duties on tackle and boats. These monies are then allocated to state fishery agencies for sport fisheries and boating access projects.

These funds support a wide array of projects in Maine including: fisheries population assessments, lake and stream habitat assessments and restoration, acquisition and maintenance of water access sites, aquatic education, and the development of long-range species management plans.

Thank you for choosing Maine as your fishing destination.

Our cool, clean waters provide healthy habitat for world-class fishing, and our experienced Maine Guides, as well as many others in our natural resources hospitality industry, are eager to ensure your experience is an unforgettable one.

The Maine Department of Inland Fisheries and Wildlife is as passionate about fishing as you are and works tirelessly toward smart and sustainable management of our State's storied fisheries and access to them. We ask you to please follow the rules in this law book to help preserve these fisheries for you and future generations to enjoy.

Now that you have discovered what has drawn anglers to Maine's pristine waters for centuries, we hope you'll return again soon. Please spread the word (even if you don't want to give up your own secret spot) about the quality and quantity of our fishing, the natural beauty of our great state and why Maine is the perfect place to invest in — for a vacation or a lifetime.

Go fish in Maine. We're happy to have you here.

Paul R. LePage
Governor

Welcome to one of the finest fishing experiences...

...you're ever likely to have! From Sebago Lake to Grand Lake Stream — from Rangeley to the Allagash — welcome to the vast State of Maine and all of its angling resources.

With more than 6,000 lakes and ponds and 32,000 miles of rivers and streams, Maine attracts anglers from all over the world to fish for some of the finest species found anywhere.

Maine is home to more than 90% of the wild brook trout found in lakes and ponds in the United States. The wild brook trout of Maine are an unparalleled resource for future generations.

But brookies aren't the only species — we've got exceptional landlocked salmon, brown and rainbow trout, and the explosive smallmouth bass as well!

While these will make for a memorable adventure, don't forget that seeing a child or young person catch his or her first trout or bass or even a sunfish will make memories that will last a lifetime.

On behalf of the Department of Inland Fisheries and Wildlife let me thank you for purchasing your license which helps the Department manage and maintain the fishing experience in all corners of the state.

So, enjoy fishing in the State of Maine and good luck with making those memories. Take a child fishing — and tight lines!

Chandler E. Woodcock
Commissioner

GENERAL LAW INFORMATION

GENERAL LAW

General Law applies to all water bodies unless there are other more specific regulations listed. The General Law provisions are stated below.

GENERAL LAW SEASONS

For Southern and Eastern Counties, see pages 19 and 20.

For Northern and Western Counties, see pages 19 and 34.

For New Brunswick Boundary Waters, see page 51.

For New Hampshire Border Waters, see page 52.

For Waters Regulated by Tribes, see page 53.

GENERAL LAW TERMINAL GEAR

The use of all legal forms of bait, artificial lures, and artificial flies is permitted.

The daily bag, possession and minimum length limits on this page apply to waters open to fishing that DO NOT have special rules stating otherwise. Special Rules on individual waters begin on pages 20 and 34, Special Regulation Codes can be found on back cover flap.

LANDLOCKED SALMON, TROUT, TOGUE (LAKE TROUT) DAILY BAG & POSSESSION LIMITS

The term "trout" when used alone includes brook trout, brown trout, rainbow trout, splake and Arctic char (Sunapee trout and blueback trout).

The term "brook trout" also includes splake and Arctic char (Sunapee trout and blueback trout).

DAILY BAG & POSSESSION LIMITS*	MINIMUM LENGTH LIMIT	
	LAKE & PONDS	RIVERS, STREAMS & BROOKS
5 Brook Trout ^{A,B} (includes Splake and Arctic char)	6 inches	6 inches
2 Landlocked Salmon ^A	14 inches ^C	14 inches ^C
2 Togue (Lake Trout) ^A	18 inches	18 inches
2 Brown Trout ^A	14 inches ^C	6 inches ^C
2 Rainbow Trout ^A	12 inches	6 inches

A. **Important:** From August 16 – September 30, fishing on rivers, streams, and brooks statewide is restricted to the use of artificial lures only and a total daily bag limit of landlocked salmon, trout and togue: 1 fish.

B. **Important:** On lakes and ponds in Androscoggin, Cumberland, Franklin, Hancock, Kennebec, Knox, Lincoln, Oxford, Penobscot, Sagadahoc, Waldo, Washington and York counties the daily bag limit on brook trout is 2 fish.

C. In Hancock and Washington counties the maximum length limit on landlocked salmon and brown trout is 25 inches. Several lakes in each county are exempt from this rule. Please refer to page 21 for Hancock County information and page 27 for Washington County information.

OTHER SPECIES

SPECIES	DAILY BAG & POSSESSION LIMITS*	MINIMUM LENGTH LIMIT
Bass (largemouth and smallmouth)	2 fish	10 inches, only 1 exceeding 14 inches
Whitefish	3 fish	None
Smelts	2 quarts	None (see page 14 – laws & definitions)
Pickarel	10 fish	None
Northern Pike	Unlimited	None
Muskellunge	Unlimited	None
American eel	25 fish	9 inches
Shad	2 fish	None
Striped Bass**	1 fish	28 inches
Atlantic Salmon	Federally Endangered Species - No Fishing Permitted, please refer to page 59 for more information	
Alewives**	25 fish (see page 12)	None
Species not listed above	Unlimited	None

* Daily bag and possession limit are the same. A person shall not possess, at any time, more fish than they may lawfully take in one day.

** Please refer to the following link for more information on Maine's Saltwater Recreational Angling Regulations for all species of fish below head of tide: <http://www.maine.gov/dmr/recreational/regulations.htm>

cover flap

SOUTHERN & EASTERN COUNTIES

Counties include: Androscoggin, Cumberland, Hancock, Kennebec, Knox, Lincoln, Oxford south of the Androscoggin River, Penobscot, Sagadahoc, Waldo, Washington, and York.

Lakes and Ponds:

- **January 1 – December 31:** Unless otherwise indicated by special rule, open to ice and open water fishing under general law fishing provisions (see page 18).

Rivers, Streams & Brooks:

- **From April 1 – August 15:** Unless otherwise indicated under the appropriate county, open to open water fishing under general law fishing provisions (see page 18).
- **From August 16 – September 30:** Fishing in rivers, streams and brooks is restricted to the use of artificial lures or flies only, and the combined total daily bag limit for trout, landlocked salmon, and togue is 1 fish.
- **From October 1 – March 31:** Unless otherwise indicated under the appropriate county, rivers, streams and brooks are closed to all fishing. Any water open to open water fishing or ice fishing between October 1 – March 31 will be indicated under the appropriate county.

Unless otherwise indicated under the appropriate county, on lakes and ponds in the Southern and Eastern counties the daily bag limit on brook trout is 2 fish.

NORTHERN & WESTERN COUNTIES

Counties include: Aroostook, Franklin, Oxford north of the Androscoggin River, Piscataquis, and Somerset.

Lakes and Ponds:

- **From April 1 – September 30:** Unless otherwise indicated under the appropriate county, open to open water fishing under general law fishing provisions (see page 18).
- **From October 1 – March 31:** Unless otherwise indicated under the appropriate county, closed to open water fishing. Lakes and ponds with extended open water seasons will be indicated under the appropriate county.
- **All lakes and ponds are closed to ice fishing,** unless indicated with an **A** or **B** code, which defines the winter fishing season.

Rivers, Streams & Brooks:

- **From April 1 – August 15:** Unless otherwise indicated under the appropriate county, open to open water fishing under general law fishing provisions (see page 18).
- **From August 16 – September 30:** Fishing in rivers, streams and brooks is restricted to the use of artificial lures or flies only, and the combined total daily bag limit for trout, landlocked salmon, and togue is 1 fish.
- **From October 1 – March 31:** Unless otherwise indicated under the appropriate county, rivers, streams and brooks are closed to all fishing. Any water open to open water fishing or ice fishing between October 1 – March 31 will be indicated under the appropriate county.

Waters open to ice fishing are listed with an A or a B code which defines the winter fishing season. All other waters are closed to ice fishing.

SOUTHERN & EASTERN COUNTIES

Counties include: Androscoggin, Cumberland, Hancock, Kennebec, Knox, Lincoln, Oxford south of the Androscoggin River, Penobscot, Sagadahoc, Waldo, Washington, and York.

See general law fishing provisions on page 18, and special rules for Maine's southern and eastern counties on page 19. Some waters may have special rules that differ from general law.

If the county water you wish to fish IS listed below, the letter code will direct you to the rule(s) which are in effect that differ from general law or the special provisions for Maine's southern and eastern counties. The meanings of the letter codes are on page 66.

ANDROSCOGGIN COUNTY

Unless otherwise indicated below, on lakes and ponds in Androscoggin County the daily bag limit on brook trout is 2 fish.

ANDROSCOGGIN RIVER

(See Fish Consumption Advisories on page 55.)

Ice Fishing: CI, except that section of river between Livermore Falls Dam and tidewater is open to ice fishing. S-19.

Open Water Fishing: Open to open water fishing from the Maine-New Hampshire Border to tidewater from January 1 – December 31.

- From the Maine-New Hampshire border downriver to the bridge crossing in Gilead: Single hook artificial lures only. S-7.

- From the bridge crossing in Gilead to the Route 232 Bridge, Rumford Point:

From April 1 – September 30: S-6; daily bag limit on trout: 1 fish; minimum length limit on landlocked salmon, rainbow trout, and brown trout: 12 inches. All trout between 16 and 20 inches must be released alive at once. From October 1 – March 31: S-6; all trout and landlocked salmon must be released alive at once.

- From the Route 232 Bridge, Rumford Point to Livermore Falls Dam:

From April 1 – September 30: S-19; minimum length limit on landlocked salmon, rainbow trout, and brown trout: 12 inches. From October 1 – March 31: S-6; all trout and landlocked salmon must be released alive at once.

- From the Livermore Falls Dam to tidewater: S-19, S-33.

ANDROSCOGGIN RIVER, LITTLE

Woodstock, Greenwood, West Paris, Paris, Oxford, Minot, Poland, Auburn, etc. S-19, S-33. From Route 26 Welchville Dam in Oxford to the confluence with Androscoggin River: Open to fishing from April 1 – October 31, S-19. From August 16 – October 31: River/Stream/Brook General Law terminal gear regulations stated for April 1 – August 15 apply.

AUBURN LAKE AND TRIBUTARIES

Auburn. CI. No motor vehicles on ice (ATVs and snowmobiles allowed). S-1, S-26. Lake, tributaries and outlet to barrier dam closed to the

spearing of all fish. From October 1 – November 30: Lake only open to open water fishing, S-6, S-7. Lake, tributaries, and outlet to barrier dam closed to open water fishing from December 1 – March 31. The Auburn Water District has closed to all water-related activities (including boating and fishing) that portion southerly of a line extending from a marker placed on a point of land on the east shore of the lake approximately 400 feet southerly of the Route 4 boat launch and extending westerly to a marker on a point of land known as Point of Pines on the west shore of the lake. That portion northerly of the above described line is also closed to all water-related activities except that small recreational boats and fishing are allowed.

BARTLETT POND AND TRIBUTARIES AND OUTLET TO BARRIER DAM, Livermore. CI. S-1, S-3, S-4, S-10.

BASIN BROOK, Auburn. S-1, S-19. Closed to the spearing of all fish.

CRYSTAL (BEALS) POND, Turner. S-2, S-3. Motorboats over 10 horsepower prohibited.

HOOPER (LITTLE SABATTUS) POND, Greene. Motorboats prohibited.

LARD POND, Turner. Motorboats over 10 horsepower prohibited.

LITTLE RIVER, Lisbon, Topsham, etc. S-33.

NEZINSCOT RIVER, Turner. From the Central Maine Power Company transmission line crossing approximately 500 yards below the junction with Martin Stream to the Turner Mill Dam: Open to ice fishing. S-6, S-19.

- From Turner Mill dam downstream to its confluence with Meadow Brook: Open to open water fishing for all fish from January 1 – December 31, S-6, S-7.

- From its confluence with Meadow Brook downstream to its confluence with the Androscoggin River: Open to open water fishing for all fish from January 1 – December 31, S-19. General Law terminal gear provisions and length limits apply year-round.

PETTINGILL PARK POND, Auburn. Open to fishing May 16 – September 30: S-9. Closed to all fishing October 1 – May 15.

PLEASANT POND, Turner. From October 1 – December 31: S-6, S-7.

RANGE POND, LOWER, Poland. Motorboats over 10 horsepower prohibited. From October 1 – December 31: S-6, S-7.

RANGE POND, MIDDLE, Poland. S-2, S-3, S-26. From October 1 – December 31: S-6, S-7.

RANGE POND, UPPER, Poland. From October 1 – December 31: S-6, S-7.

SABATTUS POND, Greene, Wales, Sabattus. S-28.

TAYLOR POND, Auburn. S-3.

THOMPSON LAKE (INCLUDING THE HEATH), Poland, Oxford, etc. (See Oxford County - Southern and Eastern Counties.)

WORTHLEY POND, Poland. From October 1 – November 30: S-6, S-7.

CUMBERLAND COUNTY

Unless otherwise indicated below, on lakes and ponds in Cumberland County the daily bag limit on brook trout is 2 fish.

ADAMS POND, Bridgton. CI. S-10, S-13. April 1 – June 20: S-6. From June 21 – September 30: S-4.

ALDENS POND, Gorham. CI. S-9.

ANDROSCOGGIN RIVER. (See Androscoggin County.)

BARKER POND, Hiram, Sebago. (See Oxford County - Southern and Eastern Counties.)

BEAVER POND, Bridgton. Motorboats with internal combustion engines prohibited.

CHAFFIN POND, Windham. CI. S-6, S-10, S-13, S-16.

COFFEE POND AND TRIBUTARIES, Casco. CI. S-2, S-3, S-4, S-10, S-13.

COFFIN POND, Brunswick. S-9, S-13.

COLD RAIN POND, Naples. From October 1 – December 31: S-6, S-7.

COLLYER BROOK, Gray. S-19.

CRESCENT LAKE, Raymond. From October 1 – December 31: S-6, S-7.

CROOKED RIVER, Albany to Casco, etc. (Cumberland and Oxford Counties): S-1, S-5, S-22; minimum length limit on landlocked salmon: 26 inches. October 1

– October 15: Fishing allowed as described above from Bolster's Mill Road bridge downstream to Route 11 in Casco. All other fish caught must be released alive at once.

CRYSTAL LAKE (ANONYMOUS POND), Harrison. S-23, except that from October 1 – December 31: S-6, S-7.

CRYSTAL LAKE (DRY POND), Gray. S-2, S-3. From October 1 – December 31: S-6, S-7.

HANCOCK POND, Denmark, Sebago. (See Oxford County – Southern and Eastern Counties.)

HIGHLAND LAKE, Bridgton. From October 1 – December 31: S-6, S-7.

HINCKLEY POND, LOWER, South Portland. S-9. From October 1 – November 30: S-6, S-7.

HINCKLEY POND, UPPER, South Portland. From October 1 – November 30: S-6, S-7.

ISLAND POND, Harrison and Waterford. (See Oxford County – Southern and Eastern Counties.)

JORDAN RIVER. (See Sebago Lake listing.)

LILY POND (CHANDLER MILL POND), New Gloucester. CI. S-4, S-10, S-13. Motorboats prohibited.

LONG LAKE, Bridgton, Harrison, Naples. From October 1 – December 31: S-6, S-7.

MOOSE POND, Bridgton (Cumberland County), Denmark, Sweden (Oxford County). S-22. Open to the taking of smelts, except the tributaries Miller Brook and Sucker Brook (Beaver Pond Outlet), and that area within 100 feet of the mouth of either brook: S-1. From January 1 – March 31: S-23. From April 1 – September 30: 14 inch minimum length limit for landlocked salmon. From October 1 – December 31: S-6, S-7.

NORTH GORHAM POND, Windham, Gorham, Standish. Total daily bag limit on landlocked salmon and trout: 1 fish.

NORTHWEST RIVER. (See Sebago Lake listing.)

OTTER POND #2, Standish. From October 1 – November 30: S-6, S-7.

OTTER POND #4, Standish. From October 1 – November 30: S-6, S-7.

Maine Boating Law Highlights

A person may not operate a motorboat or personal watercraft on the inland waters of the state unless a Lake & River Protection Sticker is affixed to both sides of the watercraft. The fee is \$10 for boats registered in Maine, and \$20 for boats registered outside Maine.

Any watercraft equipped with machinery of any horsepower must be registered, including sailboats, canoes, dinghies and rowboats. The OPERATOR must have the valid registration certificate on board and available for inspection at all times the boat is in operation. NOTE: Before a boat can be registered, the owner must (1) submit proof that the excise tax has been paid to their town tax collector or that the boat is tax exempt, and (2) pay sales tax or use tax on all boats purchased from another person (casual sale). Assigned registration numbers, stickers and excise tax decals must be displayed on both side of the bow of the boat, in that order.

Boats validly registered in other states having a federally approved law can operate, for a period of 60 consecutive days, without licensing in Maine.

An operator of a boat of more than 10 horsepower must be at least 12 years of age unless under the immediate supervision of a person at least 16 years of age.

Children 10 years of age or under are required to WEAR a Type I, II or III PFD in all watercraft.

Craft less than 16 feet and all canoes, kayaks and stand-up paddleboards regardless of length, must carry at least 1 Coast Guard approved personal flotation device (PFD), Types I, II, or III (wearable), for each person aboard. Watercraft 16 feet or longer must carry the above PLUS 1 Type IV (throwable) device immediately available in craft. See Maine Boat Law for requirements for carrying passengers for hire or other commercial purposes.

Boating accidents involving personal injury, death or property damage estimated at \$2,000 or more must be reported to a law enforcement agency by the quickest means possible.

Prudent and reasonable speed is required at all times; operation to endanger persons or property, in a reckless manner, or under the influence of alcohol or drugs, is prohibited. It is unlawful to engage in prolonged circling, informal racing, wake jumping or other types of continued and repeated activities that harass another person. This subsection may be enforced by any law enforcement officer or a person may bring a private nuisance action for a violation of the subsection pursuant to Title 17 Section 2802.

Watercraft operating between sunset and sunrise must display lights and carry such other safety equipment required by federal and state law.

For a copy of the Federally approved Maine Boating Law, contact the Maine Department of Inland Fisheries and Wildlife, 284 State St., Augusta, ME 04333, phone: (207) 287-8000.

Water Safety Zone and Headway Speed: Watercraft MAY NOT be operated at greater than headway speed (speed necessary to maintain steerage and control) within the water safety zone (the area within 200 feet of the shoreline, whether the shoreline of the mainland or of an island) or within a marina or an approved anchorage in coastal or inland waters, except while actively fishing.

Maine has a tough OUI (operating under the influence) provision in its boating law.

Lake & River Protection Sticker

MAKE SAFETY A PRIORITY!

Be cautious when recreating near hydropower facilities as water conditions can change quickly and without notice.

Pay attention to your surroundings and respect all signs and warning signals.

Life Jackets Save Lives.

Always wear yours when on or near water

COYOTE WARS

A Deer Hunters Guide to Hunting Coyotes

"Coyote Wars" is the book that every deer hunter in the northeast has been waiting to get their hands on. Author David Willette explains in detail each method of hunting coyotes; baiting coyotes, calling in coyotes, and chasing coyotes with dogs. "Coyote Wars" is loaded with stories from the experts who are on the coyote front. Coupled with dozens of graphic photos, the author gets his point across with enthusiasm and simplicity.

"Coyote Wars" is engaging and informative. A true how-to book with passion, "Coyote Wars" will make you laugh, cry and is also a reliable guide that offers valuable insight into the various forms of coyote hunting.

NORTHERN & WESTERN COUNTIES

Counties include: Aroostook, Franklin, Oxford north of the Androscoggin River, Piscataquis, and Somerset.

See general law fishing provisions on page 18, and special rules for Maine's northern and western counties on page 19. Some waters may have special rules that differ from general law.

If the county water you wish to fish IS listed below, the letter code will direct you to the rule(s) which are in effect that differ from general law or the special provisions for Maine's northern and western counties. The meanings of the letter codes are on page 66.

AROOSTOOK COUNTY

Waters open to ice fishing are listed with an A or a B code which defines the winter fishing season. All other waters are closed to ice fishing.

Boundary water rules between Maine and New Brunswick can be found on page 51. These waters are listed as S-31.

ALLAGASH WILDERNESS WATERWAY WATERS. See Piscataquis County, page 45.

ALLAGASH RIVER FROM ALLAGASH FALLS DOWNSTREAM TO THE CONFLUENCE WITH THE ST. JOHN RIVER, T15 R10&11 WELS, Allagash. S-13. Closed to the taking of live baitfish. From October 1 – November 30: S-6, S-13. Open to taking bass and muskellunge only.

ARNOLD BROOK LAKE, Presque Isle. A. S-19. Motorboats over 10 horsepower prohibited. Remains open from October 1 – November 30: S-6, S-7.

AROOSTOOK RIVER: All salmon caught in any flowing water of the Aroostook River Watershed, must be released alive at once.

– From the junction of Munsungan Stream and Millinocket Stream in T8 R8 WELS downstream to the blue markers at the Oxbow Plantation/T9 R7 WELS town line (includes tributaries upstream to the first road crossing): S-6, S-17. From August 16 – September 30: S-6; Total daily bag limit on trout and togue: 1 fish.

– From the blue markers at the Oxbow Plantation/T9 R7 WELS town line downstream to the Caribou Dam, in Caribou: general law fishing rules apply. From August 16 – September 30: S-6; Total daily bag limit on trout and togue: 1 fish.

– From the Caribou Dam, in Caribou, downstream to the Maine/New Brunswick border (includes tributaries upstream to the first road crossing): S-6, S-17. From August 16 – September 30: S-6; Total daily bag limit on trout and togue: 1 fish.

– From the Caribou Dam, in Caribou, downstream to and including Otter Brook, including all tributaries in this section upstream to the first road crossing intersecting each tributary:

Children 12 years of age or younger may fish from shore with a single-baited hook and line.

– From Hockenull Brook in Fort Fairfield downstream to and including Pattee Brook, including all tributaries in this section upstream to the first road crossing intersecting the tributary: Children 12 years of age or younger may fish from shore with a single-baited hook and line.

B LAKE, Hammond. CI. S-4.

KENNEBEC RIVER HEAD OF TIDE

Due to the removal of Edwards dam, the "head of tide" in the Kennebec River is now at the downstream side of the power line located approximately 4,200 feet upstream of the Calumet Bridge at Old Fort Western in Augusta (formerly the Father Curran Bridge) for enforcement purposes.

Photo by Bill Hanson

KENNEBEC RIVER REGULATIONS

Identify the reach you will fish and read across for regulations.

^APersons under 16 years of age may use worms as bait. Length limit on landlocked salmon and trout: 12 inches. Daily bag limit on landlocked salmon and trout: 2 fish.

BOUNDARY WATERS BETWEEN MAINE AND NEW BRUNSWICK

Licensing Requirements On Boundary Waters:

Either a Maine or New Brunswick License will be honored while fishing on the main body of the waters listed below, or on boundary river waters, including the main stem of the St. Croix River. Fishing on these waters in any area or cove where jurisdiction can be determined by a straight line drawn between two points of land, or fishing while positioned on shore or tied up to shore requires the appropriate agency license.

Waters Affected By This Section Include:

Aroostook County

- **East Grand Lake**, Orient, Weston
- **Glazier Lake**, T18 R10 WELS
- **Monument Brook**, Amity, Orient
- **North Lake**, Orient
- **The Thoroughfare between North Lake and East Grand Lake**, Orient

- **St. Francis River**, T18 R10 WELS, T19 R11 WELS, Big Twenty Twp.
- **St. John River**, from its confluence with the St. Francis River to the easternmost border of the town of Hamlin.

Washington County

- **East Grand Lake**, Danforth, Forest City Twp.
- **Grand Falls Flowage**, east of a line between red markers on McAllister Point and Abbott's Point and north to Spednic Falls

- **Mud Lake**, Forest City
- **St. Croix River**, in its entirety
- **Spednic Lake**, Forest City Twp., Forest Twp., T11 R3 NBPP, and Vanceboro
- **Woodland Flowage (St. Croix River Flowage)**, Baileyville

General Fishing Rules:

General fishing rules listed below apply to New Brunswick boundary waters that DO NOT have special fishing rules. If a water has special rules that differ from the general fishing rules listed below, they will be listed in the Special Fishing Rules sections beginning on either page 20 or page 34.

Season Dates

- Lakes and ponds are open to ice fishing from January 1 to March 31.
- Lakes, ponds, rivers, streams and brooks are open to open water fishing from April 1 to September 30.
- Rivers, streams and brooks are closed to ice fishing from October 1 to March 31 (except the St. John River).

Equipment

- **Ice Fishing:** Not more than five (5) lines per person.
- **Open Water Fishing:** Not more than two (2) lines per person.

Baitfish Use

See page 61 concerning the use of baitfish (live or dead).

Legal Hours

From 2 hours before sunrise to 2 hours after sunset (no night fishing). Legal fishing hours and open season herein does not apply to the taking of smelts from waters, or portions thereof, that are naturally free of ice.

Note

Boundary waters in Washington County (except East Grand and Spednic Lakes) have a maximum length limit of 25 inches (63 cm) on landlocked salmon and brown trout.

BOUNDARY WATERS BETWEEN MAINE AND NEW BRUNSWICK

SPECIES	DAILY BAG & POSSESSION LIMITS	MINIMUM LENGTH LIMIT
Trout	5 fish	6 inches (15 cm)
Landlocked Salmon	2 fish	14 inches (35 cm)
Togue (Lake Trout)	2 fish	18 inches (45 cm)
Aggregate bag limit on landlocked salmon, trout, and togue: 5 fish, not to include more than 2 landlocked salmon and 2 togue; all 5 may be trout.		
Smallmouth Bass	2 fish	10 inches (25 cm) Only 1 exceeding 14 inches (35 cm)
Largemouth Bass	No bag limit	No length limit
White Perch	25 fish	No length limit
Whitefish	3 fish	No length limit
Smelts	60 fish	No length limit
Cusk	10 fish	No length limit
Pickrel	10 fish	No length limit
All other species (except Sea Run Atlantic Salmon): NO DAILY BAG, POSSESSION, OR LENGTH LIMITS		

BORDER WATERS BETWEEN MAINE AND NEW HAMPSHIRE

Licensing Requirements On Border Waters:

Fishing licenses issued to any person by either this State or New Hampshire shall be recognized when used on any lake or pond which is partly in both States of Maine and New Hampshire.

Waters Affected By This Section Include:

Oxford County

- **Lower Kimball Pond**, Fryeburg, Maine and Chatham, New Hampshire.
- **Umbagog Lake**, Upton, Maine and Errol/Cambridge, New Hampshire. Waters of Umbagog Lake include the waters of the Androscoggin River downstream to coordinates 44.782092° -071.072178° to 44.781341° -071.072178° using WGS84 map datum, the waters of the Magalloway River upstream to coordinates 44.795602° -071.062732° to 44.795602° -071.061793° using WGS84 map datum, and the waters of the Rapid River upstream to the red markers at Cedar Stump in the State of Maine.

York County

- **Balch and Stump Ponds**, Acton, Maine and Wakefield, New Hampshire.
- **Great East Lake**, Acton, Maine and Wakefield, New Hampshire.
- **Horn Pond**, Acton, Maine and Wakefield, New Hampshire. Signs posted at the downstream extent of the Great East Dam Outlet Canal denote the boundary between Horn Pond and the Salmon Falls River.
- **Milton Pond**, Lebanon, Maine and Milton, New Hampshire.
- **Northeast Pond**, Acton and Lebanon, Maine and Milton New Hampshire.
- **Province Lake**, Parsonfield, Maine and Effingham/Wakefield, New Hampshire.

- **Salmon Falls River**, Acton, Lebanon, Berwick, and South Berwick, Maine, and Milton, Rochester, Somersworth, and Rollinsford, New Hampshire. Included is the upper reach of the Salmon Falls River beginning at the outlet dam of Great East Lake, also known as State Line Canal, to a point downstream marked by signage indicating the northern terminus of Horn Pond.
- **Spaulding Pond**, Lebanon, Maine and Milton, New Hampshire.
- **Townhouse Pond**, Lebanon, Maine and Milton, New Hampshire.

General Fishing Rules:

General fishing rules listed below apply to New Hampshire border waters that DO NOT have special fishing rules. If a water has special rules that differ from the general fishing rules listed below, they will be listed in the special fishing rules sections beginning on either page 20 or page 34.

Season Dates

- **Ice Fishing:**
January 1 to March 31: Lakes and ponds are open for all species except landlocked salmon and cusk.
- **Open Water Fishing:**
 - » **April 1 to September 30:** Lakes, ponds, rivers, streams and brooks are open to open water fishing for all species.
 - » **October 1 to December 31:** Lakes and ponds are open to open water fishing for all

species; all trout, landlocked salmon, and togue must be released alive at once.

- » **October 1 to March 31:** Rivers, streams and brooks are closed to all fishing (except Salmon Falls River).

Equipment

- **Ice Fishing:** Not more than five (5) lines per person (except Great East Lake).
- **Open Water Fishing:** Not more than two (2) lines per person.

- **From May 15 to June 30:** Black bass (largemouth and smallmouth) may be taken only with artificial lures and flies.

Baitfish Use

No dead or living pickerel, goldfish, yellow perch, white perch, black bass, sunfish, crappie, horned pout (bullhead), carp, or any spiny-finned fish shall be taken, sold, or possessed for use as bait for fishing in New Hampshire-Maine interstate waters.

BORDER WATERS BETWEEN MAINE AND NEW HAMPSHIRE

SPECIES	DAILY BAG & POSSESSION LIMITS	MINIMUM LENGTH LIMIT
Brook trout	2 fish	6 inches (except Umbagog Lake)
Rainbow trout	2 fish	10 inches in lakes and ponds. 6 inches in rivers, streams, and brooks.
Brown trout	2 fish	10 inches in lakes and ponds. 6 inches in rivers, streams, and brooks.
Landlocked salmon	No landlocked salmon through the ice 2 fish open water fishing	14 inches
Togue (Lake trout)	2 fish	18 inches (except Great East Lake)
Black bass	May 15 to June 30: all black bass must be released alive at once. July 1 to May 14: 2 fish	No minimum length limit. Only 1 may exceed 14 inches.
Smelts	2 quarts by hook and line only (except Lower Kimball Pond)	No length limit
Pickerel	10 fish	No length limit

All other species: NO DAILY BAG, POSSESSION, OR LENGTH LIMITS

NOTE: There is no size or bag limit on black bass in the Magalloway River in New Hampshire

The Maine State Indian Tribal Commission has adopted rules which affect the following waters within Indian Territory. Any pond 10 acres or less within Indian Territory is regulated by the Tribe in whose territory the pond is located. Anyone wishing to fish in one of these ponds in Indian Territory should contact one of the following:

Maine Indian Tribal-State Commission
(207) 817-3799
PO Box 241
Stillwater, ME 04489
mitsced@roadrunner.com
www.mitsc.org

Penobscot Nation
(207) 817-7331
Department of Natural Resources
12 Wabanaki Way
Indian Island, ME 04468

Passamaquoddy Warden Service:
Indian Township – Pleasant Point –
(207) 796-2677 (207-853-2551)
PO Box 446 PO Box 343
Princeton, ME 04668 Perry, ME 04667

General Law Regulations are listed below. Waters subject to special provisions are so indicated.

GENERAL LAW AND SEASON/BAG LIMITS

Open Water Fishing Season:

April 1 – September 30.

Ice Fishing Season:

January 1 – March 31.

Species Length and Bag Limits:

If there are no special length and/or bag limits listed within the Indian Territory Waters, then refer to statewide General Law length and bag limits on page 18.

Special rules that differ from General Law provisions are listed below for individual waters. Check the list of waters by county to determine if the water you wish to fish has special regulations. General Law regulations for fishing Indian Territory waters otherwise apply.

Note: All rivers, streams, and brooks in Indian Territory listed below are closed to ice fishing. Also closed to ice fishing are all rivers, streams, and brooks located in Passamaquoddy Territory in Penobscot County (T3 R9 NWP and TA R7 WELS) and Somerset County (Alder Brook, Pittston Academy, Soldiertown, and Hammond Townships); and in all rivers, streams, and brooks located in Penobscot Indian Territory in Penobscot County (Argyle and T3 R1 NBPP) and in Piscataquis County (Williamsburg).

Franklin County

Alder Stream, Alder Stream Twp. From confluence of Alder & Little Alder Streams downstream to Penobscot Territory boundary lines: April 1st – August 15th: Anglers age 15 and under may use single-pointed artificial lures; S-5 for anglers age 16 and older. August 16 – September 30: S-5. Remainder of Alder & Little Alder Streams (including tributaries in Indian Territory): S-5. Penobscot Indian Territory.

Big Indian Pond, Lowelltown Twp. **CI.** Daily bag limit on brook trout: 2 fish, minimum length limit: 10 inches. Passamaquoddy Indian Territory.

Blanchard Pond, Alder Stream Twp. **CI.** S-5. No motors allowed. Penobscot Indian Territory.

Carrabassett River, Carrabassett Valley. S-5. Daily bag limit on trout: 2 fish. Penobscot Indian Territory.

Clear Pond, Lowelltown Twp. **CI.** S-4. Daily bag limit on brook trout: 2 fish, minimum length limit 10 inches. Passamaquoddy Indian Territory.

Elaine Pond, Lowelltown Twp. **CI.** Daily bag limit on brook trout: 2 fish, minimum length limit: 10 inches. Passamaquoddy Indian Territory.

Huston Brook, Carrabassett Valley. S-5. Daily bag limit on trout: 2 fish. Penobscot Indian Territory.

Little Indian Pond, Lowelltown Twp. **CI.**

Daily bag limit on brook trout: 2 fish, minimum length limit: 10 inches. Passamaquoddy Indian Territory.

North Branch Dead River, Alder Stream Twp. S-5. Penobscot Indian Territory.

Round Mountain Pond, Alder Stream Twp. **CI.** Open to open water fishing May 1st. S-5. Daily bag limit on trout: 2 fish; minimum length limit: 10 inches. Penobscot Indian Territory.

Snow Mountain Pond, Alder Stream Twp. **CI.** S-5. No motors allowed. Penobscot Indian Territory.

Trout Pond, Lowelltown Twp. **CI.** Daily bag limit on brook trout: 2 fish, minimum length limit: 10 inches. Passamaquoddy Indian Territory.

Twin Island Pond, Lowelltown Twp. **CI.** S-4. Daily bag limit on brook trout: 2 fish, minimum length limit 10 inches. Passamaquoddy Indian Territory.

Hancock County

All rivers, streams, and brooks within Indian Territory: S-33.

Kilman (Selmore) Pond, T4 ND. **CI.** S-33. Daily bag limit on brook trout: 2 fish. Passamaquoddy Indian Territory.

Lower Pistol Lake, T3 ND. S-33. Open to ice fishing for all fish from January 1 – March 31. Daily bag limit on bass: 2 fish. Daily bag limit on brook trout: 5 fish. Passamaquoddy Indian Territory.

Middle Chain Lake, T4 ND. S-33. Open to ice fishing for all fish except landlocked salmon, trout, togue, and bass from the time ice forms in the fall until December 31. Open to ice fishing for all fish from January 1 – March 31. Daily bag limit on bass: 2 fish. Daily bag limit on brook trout: 5 fish. Passamaquoddy Indian Territory.

Middle Pistol Lake, T4 ND. **CI.** S-33. Daily bag limit on brook trout: 2 fish. Passamaquoddy Indian Territory.

Side Pistol Lake, T3 ND. **CI.** S-33. Daily bag limit on brook trout: 5 fish. Passamaquoddy Indian Territory.

Upper Chain Lake, T4 ND. S-33. Open to ice fishing for all fish except landlocked salmon, trout, togue, and bass from the time ice forms in the fall until December 31. Open to ice fishing for all fish from January 1 – March 31. Daily bag limit on bass: 2 fish. Daily bag limit on brook trout: 5 fish. Passamaquoddy Indian Territory.

Upper Pistol Lake, T4 ND. **CI.** S-33. Daily bag limit on brook trout: 5 fish. Passamaquoddy Indian Territory.

Penobscot County

All rivers, streams, and brooks within Indian Territory: S-33.

Big & Little Mattamiscontis Lakes, T2 & 3 R9 NWP. Open to ice fishing for all fish except landlocked salmon, trout, togue, and bass from the time ice forms in the fall until December 31. Open to ice fishing for all fish from January 1 – March 31. Daily bag limit on brook trout: 5 fish. Penobscot Indian Territory.

East Branch Lake, T2 & 3 R9 NWP. Open to ice fishing from January 1-March 31, Daily bag limit on bass: 1 fish, minimum length limit on bass 10 inches. All bass between 16 and 20 inches must be released alive at once. Daily bag limit on brook trout: 5 fish. Penobscot Indian Territory.

First Lake Mattagamon, T6 R8 WELS. Open to ice fishing from January 1 – March 31. S-17, S-26. Open to the taking and use of live baitfish. Penobscot Indian Territory.

Mill Privilege Lake, T5 R1 NBPP. Open to ice fishing for all fish except landlocked salmon, trout, togue, and bass from the time ice forms in

the fall until December 31. Open to ice fishing for all fish from January 1 – March 31. Daily bag limit on bass: 2 fish. Daily bag limit on brook trout: 5 fish. Penobscot Indian Territory.

Mountain Catcher Pond, T6 R8 WELS. CI. S-4. Daily bag limit on brook trout: 2 fish, minimum length limit 10 inches. Penobscot Indian Territory.

Piscataquis County

Sections of Merrill, Roaring, Stinking, and Whetstone Brooks and West Branch of the Pleasant River in Indian Territory: S-33. Penobscot Indian Territory

Somerset County

Big Fish Pond and thoroughfare (tributary upstream to Little Fish Pond), Holeb Twp. CI. S-5. Daily bag limit on brook trout: 2 fish; minimum length limit: 14 inches. (Department of Inland Fisheries and Wildlife rules prohibit use of motors greater than 10 horsepower). Passamaquoddy Indian Territory.

Cape Horn Pond, Prentiss Twp. CI. S-5. Daily bag limit on brook trout: 2 fish; minimum length limit: 10 inches. Passamaquoddy Indian Territory.

Duncan Pond, Prentiss Twp. CI. Closed to smelting in every even-numbered year. The daily bag limit on smelts is 1 quart. S-6; Daily bag limit on brook trout: 2 fish; minimum length limit: 10 inches. Passamaquoddy Indian Territory.

Grassy Pond, Holeb Twp. CI. Daily bag limit on brook trout: 2 fish, minimum length limit: 10 inches. Passamaquoddy Indian Territory.

Hall Pond, Prentiss Twp. CI. S-5. Daily bag limit on brook trout: 2 fish; minimum length limit: 10 inches. Passamaquoddy Indian Territory.

Hall Pond Outlet (inlet stream to Duncan Pond), Prentiss Twp. Closed to smelting in every even-numbered year. The daily bag limit on smelts is 1 quart. Passamaquoddy Indian Territory.

Little Fish Pond, Holeb Twp. CI. S-4. Daily bag limit on brook trout: 2 fish, minimum length limit 10 inches. Passamaquoddy Indian Territory.

Lower Welman Pond, Prentiss Twp. CI. S-6. Daily bag limit on brook trout: 2 fish; minimum length limit: 10 inches. Passamaquoddy Indian Territory.

Mary Petuche Pond, Prentiss Twp. Subject to Tribal regulation and will be posted. Passamaquoddy Indian Territory.

South Branch Penobscot River (section in Indian Territory), Hammond Twp., Prentiss Twp. S-33. April 1 – August 15: Daily bag limit on trout: 2 fish; minimum length limit: 6 inches (only 1 may exceed 12 inches). From August 16 – September 30: S-6. Daily bag limit on trout 1 fish; minimum length 6 inches. Passamaquoddy Indian Territory.

Washington County

All rivers, streams, and brooks within Indian Territory: S-33.

Grassy Pond, T19 MD BPP. S-33. Open to ice fishing for all fish except landlocked salmon, trout, togue, and bass from the time ice forms in the fall until December 31. Open to ice fishing for all fish from January 1 – March 31. Daily bag limit on bass: 2 fish. Daily bag limit on brook trout: 5 fish. Passamaquoddy Indian Territory.

Lower Chain Lake, T5 ND BPP. S-33. Open to ice fishing for all fish except landlocked salmon, trout, togue, and bass from the time ice forms in the fall until December 31. Open to ice fishing for all fish from January 1 – March 31. Daily bag limit on bass: 2 fish. Daily bag limit on brook trout: 5 fish. Passamaquoddy Indian Territory.

Lower Sysladobsis Lake, T5 ND BPP. Open to ice fishing for all fish from January 1 – March 31. Daily bag limit on bass: 2 fish. Daily bag limit on brook trout: 5 fish. Passamaquoddy Indian Territory.

WARNING ABOUT EATING FRESHWATER FISH

Mercury in Maine freshwater fish may harm the babies of pregnant and nursing mothers, and young children.

- Pregnant and nursing women, women who may get pregnant, and children under age 8 **SHOULD NOT EAT ANY** freshwater fish from Maine's inland waters. Except for brook trout and landlocked salmon, one meal per month is safe.
- All other adults and children older than 8 **CAN EAT** two freshwater fish meals per month. For brook trout and landlocked salmon, the limit is one meal per week.

Warning: Some Maine waters are polluted, requiring additional limits to eating fish.

Fish caught in some Maine waters have high levels of PCBs, Dioxins or DDT in them. These chemicals can cause cancer and other health effects. The Bureau of Health recommends additional fish consumption limits on the waters listed below. Remember to check the mercury guidelines. If the water you are fishing is listed below, check the mercury guideline above and follow the most limiting guidelines.

SAFE EATING GUIDELINES	
Androscoggin River Gilead to Merrymeeting Bay:	6–12 fish meals a year.
Dennys River Meddybemps Lake to Dead Stream:	1–2 fish meals a month.
Green Pond, Chapman Pit, & Greenlaw Brook(Limestone):	Do not eat any fish from these waters.
Little Madawaska River & tributaries(Madwaska Dam to Grimes Mill Road):	Do not eat any fish from these waters.
Kennebec River Augusta to the Chops:	Do not eat any fish from these waters.
Kennebec River from Shawmut Dam in Fairfield to Augusta:	5 trout meals a year, 1–2 bass meals a month.
Kennebec River from Madison to Fairfield:	1–2 fish meals a month.
Meduxnekeag River:	2 fish meals a month.
North Branch Presque Isle River	2 fish meals a month.
Penobscot River below Lincoln:	1–2 fish meals a month.
Prestile Stream:	1 fish meal a month.
Red Brook in Scarborough:	6 fish meals a year.
Salmon Falls River below Berwick:	6–12 fish meals a year.
Sebasticook River (East Branch, West Branch & Main Stem) (Corinna/Hartland to Winslow):	2 fish meals a month.

PREPARING FOR A CARVING

Plan ahead! Keep a soft tape measure and camera in your fishing gear. Take a few pictures of the fish to help record distinguishing characteristics and color. Measure the fish's length (from the center of the tail to the snout) all while handling the fish out of water as little as possible. Then follow the **Tips for Catching and Releasing Fish** on page 65.

The information is all that a carver needs to make a replica of the catch you made and the fish is available to be caught by another lucky angler.

Illegal Fish Introductions

The **Largest Threat** to Maine's Fish Populations and Fishing Heritage

In recent years Maine's lakes and rivers have experienced dozens of illegal fish introductions that pose real and immediate threats to our native fish populations and our traditional fisheries.

Unauthorized introductions of invasive, exotic fish species are particularly destructive to Maine's native fish species, especially brook trout populations. Introductions of invasive fish cause irreversible changes to entire aquatic ecosystems. Strategies to eliminate or control invasive fish are difficult to design and implement, costly, and are only effective in limited situations.

Recent news about strange South American fish (pacu) in Limestone, Maine or snakeheads in New York grab people's attention, but the spread of more commonly known species (largemouth bass, northern pike, rainbow smelt, black crappie) constitutes the greatest threat in Maine.

How widespread is this problem?

Since May 2006 approximately 100 new introductions have been documented by MDIFW fisheries biologists throughout the state.

Where do these introductions occur?

In the past the vast majority of introductions occurred in southern, central, and coastal Maine. In recent years invasive fish are being established at a higher rate in western and northern regions where most of Maine's wild brook trout and Arctic char populations are located.

When a non-native or invasive species is illegally introduced into a waterbody the following impacts can occur:

1. Prey upon existing fish species in that waterbody.
2. Compete with existing fish species for food and habitat.
3. Spread to other waterbodies (upstream and downstream) that are connected to the original water. This expands the range of the new species and continues impacting other existing fish populations.
4. Increase the potential for fish diseases to be spread and for the introduction of new diseases from outside of Maine. Existing Maine regulations on the importation of live fish and health screening requirements for authorized transfers have prevented the spread of most fish diseases into Maine from neighboring states.
5. Once an introduced fish species becomes established in a waterbody the fish community is FOREVER CHANGED!

What can you, the angler, do?

Properly dispose of unused bait. Always dispose of unwanted baitfish on land or in the trash. DO NOT release any live baitfish into a waterbody!

Anglers are strongly encouraged to harvest all northern pike, muskellunge, walleye, and black crappie and not release them back to the water alive.

Follow fishing regulations. Regulations that restrict anglers to fly-fishing only, artificial lures only, or preclude the use or possession of live fish are often intended to prevent the introduction of new fish species to sensitive areas of the state. Please follow all regulations in regards to the use of terminal gear (tackle) as stated in the fishing lawbook.

Report introductions. If you observe a person releasing live fish into a waterbody, gather any information on the person's description, boat hull number or vehicle license plate number if applicable. Report your observation by calling Operation Game Thief at 1-800-253-7887.

If you catch a fish species that you believe is not known to inhabit a waterbody take a picture and/or kill the fish and freeze it immediately and contact the nearest regional MDIFW Office (listed in the fishing lawbook).

Which species are most often introduced and the problems that they cause?

Largemouth bass – If a waterbody already contains smallmouth bass, largemouth bass commonly outcompete smallmouths reducing their overall abundance. If a trout stocking program is active in a waterbody that largemouth bass become established in, the bass prey upon the stocked trout. This decreases angler catch rates for trout and may prompt MDIFW biologists to stop stocking trout altogether if predation rates on stocked trout become unacceptably high. Introduced largemouth bass have also decimated baitfish populations in many waters, eliminating opportunities to harvest baitfish, both recreationally and commercially.

Northern pike – Pike introductions create a significant change to the fish population structure within a waterbody. They will prey upon any available forage species (smelt, shiners, fallfish, and perch) as well as game fish (bass, pickerel, and both wild and stocked trout and salmon species). This reduces the overall abundance of both forage and game fish, which has drastic impacts to anglers over time.

Muskellunge – Muskies negatively impact wild brook trout populations in Maine. Due to their preference for cool-water habitat muskie actively prey upon native minnow species and brook trout, while also pushing out brook trout from slow water habitat. This reduces the overall abundance of brook trout in ponds and rivers where muskie are present, which greatly reduces angler catch rates of trout over time.

Black crappie – Black crappie compete for forage with existing fish species when introduced to a waterbody. Due to their fast growth rates and high productivity, crappie can quickly become abundant. A unique life history trait exhibited by crappie is large-scale downstream movement of young-of-year fish. This allows for quick colonization of downstream waters.

Smallmouth bass – When smallmouth bass are introduced into waters with wild brook trout populations they prey upon the brook trout and compete with trout for food and available habitat. As the bass population becomes more abundant they will reduce or extirpate brook trout and spread into accessible waters upstream or downstream.

Landlocked alewife – Landlocked alewives compete with smelt populations, often reducing the abundance of smelt in a waterbody. This change produces a profound negative impact to landlocked salmon because smelt are the primary forage for landlocked salmon. Reduced smelt abundance decreases landlocked salmon growth and abundance, along with angler satisfaction.

Rainbow smelt – Smelt are common in many waters and are native to Maine. Though often used for bait, their introduction into wild brook trout ponds and small-sized Arctic char waters cause significant negative impacts to trout and char because adult smelt prey on the young of both species.

Why is it difficult to remove fish once introduced?

The removal of unwanted organisms from aquatic environments (water) is much harder to address compared to terrestrial environments (land). Special fishing regulations to limit population growth of an introduced species are generally ineffective over the long term. The use of rotenone to chemically reclaim a waterbody is highly effective, but its use is limited to smaller lakes and ponds due to the high costs and the impracticality of achieving complete removal in larger waterbodies with extensive tributary systems.

The illegal introduction of any fish into any Maine water is a Class E crime, punishable by fines up to \$10,000! The Maine Department of Inland Fisheries and Wildlife is offering a minimum reward of \$2,000 for information leading to the apprehension of persons responsible for the illegal introduction of fish. Call Operation Game Thief at 1-800-253-7887.

PROPERLY HANDLING SOFT PLASTIC BAIT

Soft plastic baits are popular fishing tackle. Many discarded plastic baits are ending up on lake bottoms or in fish stomachs. Fish often ingest these baits off the bottom, and they may impact fish health.

You can do your part to make sure that plastic baits are handled properly. **Never discard or dump used soft plastic baits into the water!** Dispose of your used baits properly in a trash can. Keep an eye out for ReBaits® recycling canisters at several boat launches in southern and central Maine. Used plastic baits placed in ReBaits® collection canisters are recycled into new plastic baits and made available to kids fishing derbies for free.

ReBaits®

The best thing you can do is inspect your soft plastic bait frequently. After catching a fish, make sure your bait is still intact. If your bait is worn and will likely fall off, replace it with a new bait, re-hook it or repair it.

You can also extend the useful life of your plastic baits quite easily. Use a small o-ring or cinched small zip-tie in the middle of the bait, and place your hook right under the o-ring or zip-tie. That way, if your hook pulls through the bait, the o-ring or zip-tie will help retain your bait.

Help ensure the health of future fisheries. Discarded soft plastic baits are trash. Please replace any worn baits while fishing and dispose of these baits properly.

All of these lures were found in the stomach of a 14 pound Lake Trout caught by George Manley of Sidney, Maine in Maranacook Lake in 2009

3 WAYS TO DISPOSE OF YOUR SOFT PLASTIC BAIT

Don't throw your used soft plastic baits into the water! As mentioned elsewhere in this lawbook, bringing a small Ziploc bag to collect used baits until you get off the water is an excellent idea. But what happens when you get done fishing? Here are your top three options:

- **Recycle canisters.** There are bait recycle canisters located on a number of Maine lakes. These are similar to the line recycling canisters. Simply deposit your used soft plastic baits into these canisters at the end of the day.
- **Local recycle programs.** Check with your local fishing club or retailer to see if they are involved in a bait recycling program.
- **Trash bin.** If there isn't a bait recycle canister available, simply toss it in the trash.

You wouldn't throw your plastic water bottle overboard — don't toss your soft plastic baits, either.

KeepAmericaFishing.org

STOCKING INFORMATION

Maine Department of Inland Fisheries & Wildlife stocks over 1 million fish annually. Information available online includes:

- Current Year Stocking Report — *Updated Daily*
- Historic Annual Stocking Reports, including Broodstock Reports
- Recent Stocking Program Changes — New and Discontinued Programs

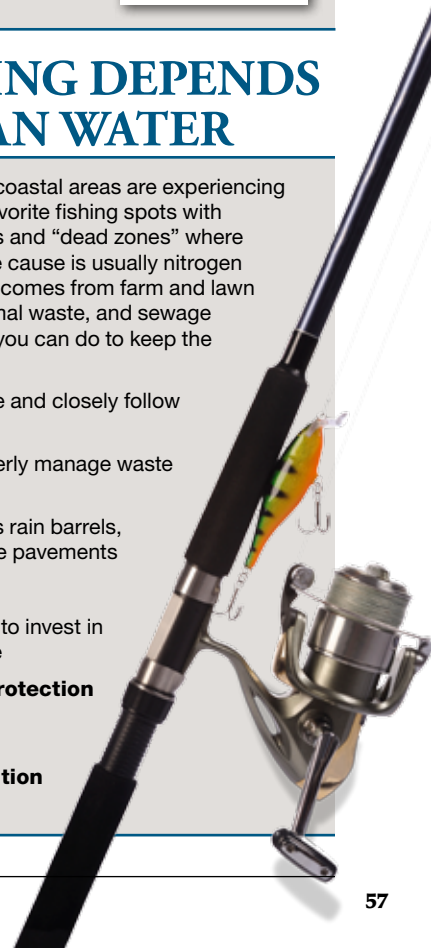

GOOD FISHING DEPENDS ON CLEAN WATER

Many of our rivers, lakes, and coastal areas are experiencing algae blooms that cover our favorite fishing spots with green slime and cause fish kills and "dead zones" where no aquatic life can survive. The cause is usually nitrogen and phosphorus pollution that comes from farm and lawn fertilizers, septic systems, animal waste, and sewage treatment plants. Here's what you can do to keep the water clean:

- Take care not to over fertilize and closely follow package instructions
- Pick up pet waste and properly manage waste from livestock
- Use green practices such as rain barrels, rain gardens, and permeable pavements
- Maintain septic systems
- Encourage your community to invest in its wastewater infrastructure

Supporting water quality protection supports great fishing!

Learn more at:
www.epa.gov/nutrientpollution

MUSKIE, PIKE, OR PICKEREL?

Anglers are encouraged to harvest northern pike and muskellunge and not release them back to the water alive.

MUSKIE, PIKE, OR PICKEREL?

To view images and information on freshwater fish species in Maine visit: <http://www.maine.gov/ifw/fishing/species/identification/index.htm>

Muskellunge – Dark, vertical bars on light green or brown background.

Only upper half of cheek and gill cover scaled.

Northern Pike – Light colored, irregular markings on dark background along flank. Dorsal fin insertion slightly ahead of anal fin.

Scales on only the upper half of gill cover

Chain Pickerel – Dark, chain-like markings on light background along flank, and a dark vertical line under eye.

Cheek and gill cover fully scaled.

KNOW THE S-33 CODE!! (Maximum length limit on landlocked salmon and brown trout: 25 inches)

Atlantic salmon occur in many of Maine's inland waters and can be found with landlocked salmon and brown trout.

Atlantic salmon are listed as endangered species by the U.S. Fish and Wildlife Service and are considered a closed species by the State of Maine. To help protect them and ensure anglers do not inadvertently "take" an endangered

species through misidentification, the S-33 code was developed.

Atlantic Salmon occur in a variety of color phases from black to silver to brown, and can look similar to brown trout in coloration. Atlantic Salmon also occur in regions of the state not subject to the S-33 rule. Therefore, anglers should use caution and make proper identification any time a large Salmonid is caught. **Any Atlantic salmon incidentally caught must be released immediately, alive and uninjured. At no time should Atlantic salmon be removed from the water.**

IDENTIFICATION OF LANDLOCKED SALMON AND BROWN TROUT

The more obvious difference between landlocked salmon and brown trout may be found in the head and tail areas. Knowing them may help the angler release a fish more quickly when certain creel and size restrictions apply. On landlocked salmon, the vomerine teeth are small and arranged in a single row along the vomerine shaft, few to none on vomerine head. On brown trout, the vomerine teeth are well-developed on both vomerine head and shaft, arranged in a zig-zag row on shaft. On landlocked salmon, the caudal fin may be slightly forked and on the brown trout, the caudal fin is square and unforked.

Brown Trout
inside upper jaw

Landlocked Salmon
inside upper jaw

Know the species you catch!

Brown Trout

Atlantic Salmon

Adult 20"-30" or longer

Brook Trout

To help eliminate confusion, there is a 25 inch maximum length limit on brown trout and landlocked salmon on this water.

"If you don't know, be safe and let it go!"

SALTWATER FISHING & ANADROMOUS ATLANTIC SALMON

DMR file photo

For current saltwater recreational fishing regulations, please visit the Maine Dept of Marine Resources (DMR) website at <http://www.maine.gov/dmr/recreational/regulations.htm> or call DMR at 633-9500.

It is unlawful to angle for, take, or possess anadromous Atlantic salmon from all Maine waters (including all coastal waters), unless otherwise permitted by DMR. If an Atlantic salmon is incidentally hooked it should not be removed from the water, and it should be released immediately.

MOST COMMON BAITFISH

HOW TO IDENTIFY COMMON LEGAL (AND ILLEGAL) BAITFISH

Rainbow smelt:

- Long, slender, and silvery
- Adipose fin present

Fathead minnow:

- First dorsal fin ray is short and thick
- Distinctive fat/flattened head shape
- Generally 2–2.5" in length

Creek chub:

- Similar to Lake Chub but with a dark spot at base of dorsal fin
- Upper jaw extends at least to below front of eye

Eastern silvery minnow:

- Silvery sides with some olive coloration on back
- Lower jaw is crescent or banana shaped
- Somewhat similar in appearance to rainbow smelt, but adipose fin absent

Sucker (White and Longnose):

- Mouth points downward with thick lips
- Large scales
- Adults can be over 22" in length

Northern redbelly dace:

- Two black lateral bands down body
- Males may exhibit bright red coloration on bellies
- Similar legal species include blacknose, longnose, pearl, and finescale dace

Common shiner:

- Deep bodies with a slightly downward curving lateral line (curved less deeply than the golden shiner)
- Scales on sides near the front of the body are obviously taller than they are wide
- Mature individuals may have red fins (also known as the "Redfin Shiner")

Lake chub:

- Similar in appearance to Creek Chub, but lacks a dot at the base of the dorsal fin
- Mature adults may have bright orange/red spots where the pectoral fins meet the body

Golden shiner:

- Deep flattened body with a strongly downward curving lateral line
- Large scales
- Sickle-shaped anal fin
- Fleshy "keel" (lacks scales) between the pelvic fins and anal fin

Please note: These are not the only legal baitfish species, only the more common ones. For a complete list of which species are legal to use as bait and which species are not legal to use as bait, please see baitfish restrictions on page 61.

IT IS ILLEGAL TO USE THESE FISH AS BAIT

When in doubt or if it cannot be identified, don't use it!

Stickleback (any species)

Brown bullhead (hornpout, catfish)

Anything in the pike, muskie, or pickerel family

Spiny rayed fish:

Including but not limited to any bass, sunfish, perch, crappie, or any other fish that has hard, spiny rays on their fins.

Any species not listed as legal baitfish: including but not limited to carp, rudd, goldfish, walleye, alewives, and sculpin.

IMPORTATION OF BAITFISH PROHIBITED

It is unlawful to import any live baitfish or smelts into Maine.

BAIT DEALER'S LICENSE

It is unlawful for any person to deal in live baitfish or live smelts without first obtaining a valid dealer's license. For further information, contact IF&W. (**Note:** A person may take live baitfish for their own use, by the use of hook and line or bait trap only, if that person holds a valid fishing license.)

MARKING HOLES

When using drop nets to fish through the ice for baitfish/smelts, all holes made in the ice **must be marked** either by evergreen boughs placed around the hole, or by suspending at least 1 strand of fluorescent biodegradable tape at least 3 feet above the ice around the entire perimeter of the hole so that the tape is visible from all sides.

STORING LIVE BAITFISH

Live baitfish may not be stored or held in any waters where the use or possession of live fish as bait is prohibited during the entire ice fishing season or the entire open water fishing season. This includes waters restricted to the use of artificial lures only, waters restricted to fly fishing, and where there are other prohibitions on the use of live fish as bait. To obtain a list of Maine waters where baitfish cannot be stored please contact IFW's Augusta Office, or visit IFW's website: mefishwildlife.com.

TAKING OF BAITFISH FOR PERSONAL USE

- *All waters are open to the taking of baitfish for personal use, including rivers, streams and brooks, unless designated "closed to the taking of live baitfish" (see special rules beginning on page 20).*
- Any person with a valid Maine fishing license may take baitfish for their personal use.
- Baitfish taken are for personal use only and may not be sold without a bait dealers license.
- All baitfish traps and holding cages must be labeled with the owner's name and address.
- Baitfish traps may not exceed 50 cubic feet in volume.
- Baitfish traps must be tended at least once every 7 days by the person who set them.
- The following species are considered legal baitfish. Any species of fish not listed below, except smelt, may not be used as bait (live or dead) for fishing in inland waters. All other fish species must be immediately released alive into the water where they were captured.

Blacknose shiner
Common shiner
Emerald shiner
Golden shiner
Spottail shiner
Blacknose dace
Finescale dace

Northern redbelly dace
Pearl dace
Creek chub
Lake chub
Eastern silvery minnow
Fathead minnow
Fallfish

Longnose sucker
White sucker
Banded killifish
Mummichog
American eel

- **Always seek landowner permission before crossing private land to trap baitfish.**

TROUBLE BY THE BUCKETFUL

That's what the illegal introduction of exotic species brings to Maine's waters.

Some thoughtless individuals are attempting to destroy the future of Maine's native fisheries. These non-sportsmen illegally stock the type of fish they prefer to catch, without regard for the environmental havoc they inflict on the resource. Illegal stocking selfishly denies the people of Maine the right to decide what is best for our waters.

Please help fight this serious problem.

- It is illegal to transport live fish without a permit except legal baitfish or smelts.
- It is illegal to dump unused baitfish into any waterway.
- There is a \$10,000 fine for a conviction of illegal stocking.
- Always keep your ears and eyes open for those who are committing these senseless acts.
- If convicted, the license revocation has increased from 1 to 5 years.

To report information about an illegal introduction please call:

1-800-ALERT-US (253-7887)
In-State

Conserving Maine's Wild Brook Trout

Photographs by Murray Carpenter

Maine is the nation's wild brook trout (*Salvelinus fontinalis*) resource leader. A national status assessment of the species' historic range, completed in 2005, found the greatest percentage of intact, viable wild brook trout populations occur in Maine. Maine is a leader in wild brook trout conservation and a founding partner of the Eastern Brook Trout Joint Venture: National Fish Habitat Partnership (www.easternbrooktrout.org). Our wild brookies persist statewide and can be found inhabiting all varieties of aquatic habitats – lakes, ponds, rivers, streams, and coastal estuaries. This provides anglers with ample year round options to experience a variety of fishing opportunities and angling styles while exploring Maine's diverse geography.

Maine's wild brook trout tend to be concentrated in the interior highlands of the state, an area dominated by vast forests. However, wild brookies are also common in lower elevation areas, the coastal plain, and in relative close proximity to development. All in all, recent survey efforts of all habitat types reveal that wild brook trout occupy about 60% of all habitats available to them within Maine. Because trout can be found in such diverse habitats and conditions, fish size and abundance is also quite variable. As such, IFW biologists vary management strategies across habitats and waters in order to provide a variety of options to anglers while conserving populations for future generations. Some

ponds that support high growth rates are managed to provide anglers an expectation of catching larger than average size trout. Conversely, some waters that tend to produce high abundances of trout are managed to provide anglers an expectation of 'faster fishing' or higher catch rates for smaller trout. Additional information regarding managing Maine's unique and valuable wild brook trout resources can be found here www.maine.gov/ifw/fishing/species/management_plans/brooktrout.pdf.

Regulating Harvest

Some Management Techniques and Their Effects

In North America, fishing regulations were implemented well before the turn of the 20th century. For example, season closures for some marine fisheries were implemented as early as the 1600s and by the time of the American Revolution, numerous statutes were in place regulating fish harvest. Since the 1960s there has been a broad trend toward more restrictive harvest regulations including the reduction in the number of fish that can be harvested and the use of restrictive length limits. Additionally, water and species-specific regulations have become common throughout the United States. Whereas seasonal closures and creel limits were often the only regulations implemented at the turn of the 20th century, slot length limits and length-based creel limits are now used more widely to control harvest.

Fishing regulations are implemented for many reasons. In Maine, fishing regulations are implemented to improve fishing quality or to maintain population viability, to alter community dynamics, or to encourage the control of exotic species from certain waters. In addition, fishing regulations can be applied for public safety concerns, such as consumption advisories due to contaminants (e.g., lead, mercury, PCBs). Regulations may also be implemented for social reasons, such as accommodating the desires of individual user groups. Both social and biological data are used by our Fisheries Division when implementing or altering fishing regulations and policies. Suffice to say, developing, maintaining, and changing fishing regulations is no easy task! With any regulation, careful design and regular monitoring are essential in order to be effective.

If you've fished in Maine then you may recognize that state-wide there are a diversity of fishing regulations that all anglers must follow. Fishing regulations are as diverse as the people of Maine and are based on many factors, including the water body, location, water quality, species composition, and the desires of anglers. Below are some fisheries management techniques that we hope define and explain why certain regulations exist.

General Law: This regulation provides basic protection to stocked and wild fish. General law encourages early harvest where angler pressure is moderate to high which can maximize growth rate potential of individual fish not harvested in the fishery. This regulation can provide good catch rates and harvest opportunities

Low Bag Limits: Lower bag limits are intended to distribute the catch over a longer period of time and among more anglers. Low bag limits usually coincide with restrictive regulations such as high minimum length limits.

Slot Limits: These regulations are bound by the upper and lower length limits with the intent of directing harvest to specific parts of a fish population while protecting others. A slot limit may be used to "thin out" smaller fish to allow remaining fish to grow faster and enable large fish to be caught and released or kept. The protected size slot protects fish and allows them to continue to grow and reach a larger size class. Anglers are important with this regulation! Without harvesting fish of a given size, the regulation does little for management of the resource.

Catch and Release: This regulation is intended to return fish to the water alive, thus giving them the chance to grow larger and be caught again. This regulation may be effective on waters where natural recruitment and population size is very low and growth rates are excellent, or on waters where there is a strict need for conservation (imperiled or endangered species, for instance).

Fly Fishing or Artificial Lures Only: These "terminal tackle" regulations are applied to reduce mortalities in released fish and are often an effective and necessary companion to restrictive bag and length limits.

No Live Fish as Bait: This regulation is typically applied to reduce the risk of establishing unwanted bait populations in landlocked salmon or brook trout waters, while still allowing the use of dead baitfish or artificial lures.

CATCHING AND RELEASING FISH

By carefully following these simple instructions, you can release your fish unharmed. If you enjoyed catching your fish, so will the next angler!

1. **Time is of the essence.** Play and release the fish as quickly and carefully as possible. An exhausted fish may be too weak to recover. Please, do not "overplay" your fish!
2. **Important: Keep the fish in the water.** Minimize or eliminate the time your fish is out of the water - as little as 30 seconds of air exposure can cause delayed mortality of released trout, or the fish may be subject to a "quick freeze" during the winter months.
3. **Always wet your hands when it comes time to handle the fish.** Dry hands are much more likely to remove a fish's layer of slime that protects the fish from fungus, bacteria and parasites.
4. **Photographing your fish can be stressful.** Prepare for taking photos with your fish safely under the water surface. When lifting the fish out of the water, do it for 5 second intervals or less. Try to get the shot (within reason), but return your fish to the water for a rest between attempts.
5. **Be gentle.** Keep your fingers away from the gills. Don't squeeze the fish. Please, never drag a fish onto the bank!
6. **Choose the right landing net.** Rubber nets are easier on the fish than traditional twine nets.
7. **Remove the hook with small pliers or a similar type tool.** If the hook is deeply embedded or in a sensitive area such as the gills or stomach, cut the leader close to the snout. Make an effort to use regular steel (bronzed) hooks to promote early disintegration. Do not use stainless or gold-plated hooks. Consider using barbless hooks, especially on "catch and release" waters.
8. **To revive a fish once it is back in the water,** hold it in a swimming position in the water until it is able to swim away.
9. **Togue (lake trout)** often have expanded air bladders after being pulled up rapidly from deep water. If the belly appears expanded, release the fish from the hook first, then gently press your thumb along the stomach near the paired belly fins and move it forward a few times to remove air from the bladder. Finally, proceed to revive and free the fish.

LOONS & LEAD DON'T MIX

Lead tackle is deadly to waterbirds!

Photograph by Keith Carver

Lead sinkers and jigs cause fatal lead poisoning in loons and other waterfowl. Lead ingestion is the #1 killer of loons in Maine, but any waterbird can die from swallowing just one lead sinker or jig!

YOU CAN:

- Use steel, tin, bismuth or plastic instead. Ask local tackle shops to stock alternatives.
- Properly dispose of old lead sinkers & jigs.

Maine Department of
Inland Fisheries and Wildlife

Maine Audubon Society

S-CODES & SEASON DATE CODES

Waters which have exceptions to the general law are listed by county. If the water you wish to fish is listed under the appropriate county, the special regulation codes (S-1 through S-33) and season date codes (A, B, CI, CO) will direct you to the specific rules for that body of water. These specific rules will differ from general law or the provisions for Maine's Counties. In most cases, the exception will be one of the codes listed below and may affect only a portion of the regulations that govern that particular body of water. All other provisions of general law would apply. The codes are defined below:

SPECIAL REGULATION CODES FOR ICE FISHING AND OPEN WATER FISHING – (S-CODES)

- | | | |
|--|--|--|
| S-1: Closed to taking smelts. | S-12: Reserved for additional options. | S-24: Daily bag limit on landlocked salmon: 3 fish; minimum length limit: 12 inches. |
| S-2: Closed to taking smelts, except by hook and line. | S-13: No size or bag limit on bass. | S-25: Daily bag limit on togue: 1 fish. |
| S-3: Tributaries closed to taking smelts. | S-14: Daily bag limit on bass: 1 fish; all bass between 16 and 20 inches must be released alive at once. | S-26: Daily bag limit on togue: 3 fish; minimum length limit: 14 inches, only 1 may exceed 18 inches. |
| S-4: Use or possession of live fish is prohibited. (The use of dead fish, salmon eggs, and worms permitted.) | S-15: Daily bag limit on bass: 1 fish; no minimum length limit on bass; all bass between 12 and 20 inches must be released alive at once. | S-27: Daily bag limit on togue: 6 fish; minimum length limit: 14 inches, only 1 may exceed 23 inches. |
| S-5: Fly fishing only. | S-16: Daily bag limit on trout 2 fish; minimum length limit: 12 inches, only 1 may exceed 14 inches. | S-28: Daily bag limit on white perch: 25 fish. |
| S-6: Artificial lures only. | S-17: Daily bag limit on trout: 2 fish; minimum length limit: 10 inches, only 1 may exceed 12 inches. | S-29: No bag limit on pickerel. From July 1 - September 30: artificial lures only; the minimum length on trout is 8 inches. |
| S-7: All trout, landlocked salmon, and togue caught must be released alive at once. | S-18: Daily bag limit on trout: 1 fish; minimum length limit: 18 inches. | S-30: Indian Territory Regulations. See pages 53-54. |
| S-8: Restricted to 2 lines per person. | S-19: Daily bag limit on trout: 2 fish. | S-31: Boundary waters with New Brunswick. See page 51. |
| S-9: Open to fishing only for persons under 16 years of age or for persons holding an eligible complimentary fishing license. Restricted to two lines per person. Daily bag limit on trout: 2 fish. | S-20: All trout less than 6 inches and longer than 12 inches must be released alive at once. | S-32: Border waters with New Hampshire. See page 52. |
| S-10: Remains open to open water fishing from October 1 - November 30: artificial lures only; all trout, landlocked salmon and togue must be released alive at once. Closed to open water fishing from December 1 - March 31. | S-21: Daily bag limit on trout: 1 fish; minimum length limit: 14 inches. | S-33: Maximum length on landlocked salmon and brown trout: 25 inches. |
| S-11: Open to fishing only for persons under 16 years of age. Restricted to two lines per person. Daily bag limit on trout: 2 fish. | S-22: Daily bag limit on landlocked salmon: 1 fish. | |
| | S-23: Minimum length on landlocked salmon: 16 inches. | |

SEASON DATE CODES

- | | |
|---|--|
| A: Open to ice fishing and open water fishing for all fish from December 1 - April 30. | CI: Closed to ice fishing. |
| B: Open to ice fishing and open water fishing from January 1 - March 31. | CO: Closed to open water fishing from October 1 - March 31. |
- (Note: Special rules may restrict the general law fishing provisions.)**

BEFORE AND AFTER YOU FLOAT, INSPECT YOUR BOAT

MAINE DEPARTMENT OF ENVIRONMENTAL PROTECTION
www.maine.gov/dep/water/invasives

Check your boat. Drain water and remove all plants from:

- | | |
|--|---|

KITTERY TRADING POST®

NEW! STRADIC HG SERIES REELS

A design concept for a tougher more efficient fishing reel — HAGANE. HAGANE is a Shimano reel design concept created to withstand continual use & extreme abuse. It is an innovation of built in toughness, durability & precision engineering.

NEW! SEDONA® FE REELS

The new Sedona now comes equipped with a double anodized, machine-cut spool, which allows for increased line capacity, as well as a more compact body design that utilizes advanced XGT7 composite material for a lightweight, rigid foundation.

SHIMANO®

HAGANE

OUR GOAL: **Eternally Smooth Reeling**

NEW! STRADIC FK SERIES REELS

The all-new Stradic FK spinning reels combine your passion for fishing with Shimano's innovative HAGANE design concept, offering you a tougher, powerful, more durable reel. A sleek G-Free body provides a better weight balance to reduce fatigue.

TERAMAR® NORTH EAST RODS

Aptly named, Teramar 'Northeast' rods are available in lengths and actions with features ideally suited to tackle waters along the rugged northeastern seaboard, from New England to the Jersey Coast.
